DHONFANU & HANIFARU

28 AUGUST - 5TH
SEPTEMBER 2023
10 DIVES, 2 SNORKELLING

What to expect

Diverse Pelagic Life

We are going to Manta Land. Join us on our cinematography expedition to the less frequented island of Dhonfanu, just 10 minutes off Hanifaru Bay. We will be visiting the bay around the full moon time with the expectation of seeing a hundred Manta Rays congregate in a feeding frenzy. It will be a sight to behold and have an intimate encounter with.

About diving

This itinerary is made with the intention of enjoying your time on a less frequented island. We will be doing 10 dives over 7 days around the bay and off Dhonfanu, and 2 trips to Hanifaru Bay. In Hanifaru Bay, only snorkelling is allowed. It is a designated UNESCO Biosphere Reserve.

Cinematography

The Ocean Blue team will be on a cinematography expedition on this trip, and hence we will be doing our diving focused on capturing the underwater world from behind the camera. If you are interested in learning about UW photography and trying your hands on it, as well as wanting to observe the process, consider joining us on this trip!
